LANGUAGES

English: Native Level

French: Native Language

HOBBIES

DIY, home improvement

Motorsports and sim racing

ABOUT ME

Driven by a passion for technology, and a keen interest for programming, I have transitioned into software development, aiming to take advantage of my experience to make an impact. My diverse professional background has given me the ability to think out of the box, and communicate complex ideas in simple terms, making me an effective team player. I am passionate about creating functional applications to solve real-world problems, and I always look forward to new challenges and opportunities to learn and grow.

SOME WEB DEVELOPMENT PROJECTS

DigitalVault - <https://digitalvault-mzj6.onrender.com> - [Git link](#)

A secure marketplace for digital art downloads handling Stripe payments.

Role: Full-Stack Developer (solo project with AI assistance).

- Designed, implemented, secured, and deployed to production in 2 weeks.

// Rails 8, Hotwire, Devise, Pundit, Tailwind CSS, PostgreSQL, Render, Stripe

// Cloudflare R2, Solid Queue/Cache, Rack Attack, Brakeman

Basho - [Git link](#)

A web app to create, edit and curate your favourite places, visited or yet to visit.

Role: Full-Stack Developer and pitcher in a team of 4 members.

- Designed, implemented and shipped to production in 2 weeks.

- Presented the app on Demo Day, with an audience of over 120 people.

// Rails, Stimulus.js, PostgreSQL, Heroku, Figma

// API: MapBox, Geocoder, Google
