Full-Stack Web Developer

SUMMARY

Master of Information Technology graduate and full-stack web developer with hands-on experience building and deploying web applications in Ruby on Rails and Python/Django. Brings practical experience across backend development, frontend implementation, databases, Git-based workflows, testing and cloud deployment, with a strong interest in building useful, well-designed applications. Known for clear communication, careful problem-solving and an eye for usability, errors and interface detail.

PROFESSIONAL EXPERIENCE

06/2026 – Present | **IT Support Officer** (Part-time, Temporary)

Ruth Australia Pty Ltd. (AU, remote)

- Provide IT support, access permissions, resolve user issues, and communicate solutions clearly to non-technical users.
- Work collaboratively to develop a Python/Django company website currently progressing toward launch, contributing to requirements, development, testing and user-focused improvements.

// Python/Django, HTML/CSS/JavaScript, SQLite (dev) / PostgreSQL (prod)

// Render, SendGrid API, GitHub, python-decouple, UptimeRobot

09/2025 – 08/2026 | **IT Support**

Lifestyle Markets Australia Inc. (AU)

- Supported users with Google Workspace account setup, permission management and troubleshooting.
- Co-wrote the Google Workspace Onboarding Guide and quick-reference materials.

CAREER BREAK

2021 – 2026 | **Family Responsibilities**

Completed formal study and development projects; now seeking full-time work.

OTHER EXPERIENCE

2007 – 2021 | **English Teacher:** Universities, Colleges and Centres

International University, Uni. of Law, College of Education (VN)

- Delivered reliable, structured teaching across multiple locations and diverse learner groups.

LATEST PERSONAL PROJECT

DigitalVault - [App Link](#)

A secure digital-art marketplace with Stripe payment integration.

- Built and deployed a Rails application with user authentication, role-based authorisation and Stripe payment integration.
- Applied security-focused controls including Devise authentication, Pundit authorisation, Rack Attack rate limiting and Brakeman static analysis.

// Rails 8, Hotwire, PostgreSQL, Stripe

// Cloudflare R2, Rack Attack, Brakeman

TECHNICAL SKILLS

Backend: Ruby, Rails, Python, Django, MySQL, PostgreSQL

Frontend, UX: HTML, CSS, JavaScript, Bootstrap, Figma, prototyping, accessibility, responsive design

Engineering: Git/GitHub, RSpec BDD, Mocha TDD, debugging, testing, requirements analysis, SDLC, Agile delivery practices (Scrum/Kanban)

Cloud, Security: Render, Heroku, Netlify, AWS, RBAC

CERTIFICATIONS & MEMBERSHIPS

CISCO Junior Cybersecurity Analyst

AWS Cloud Essentials Badge

ACS (Australian Computer Society)

Student Member since 02/2025

EDUCATION

09/2026 | **Master of Information Technology**

Torrens University Australia (AU)

High Distinctions in most subjects, including Programming, UX/UI design, Software Development, and Systems Analysis and Design.

11/2023 | **Full Stack Web Developer**

Le Wagon Tokyo (JP)

Nine-week intensive program covering Ruby, Rails and team-based delivery.

02/2022 | **BA (Hons) Interior Architecture and Design**

University of Hertfordshire (UK)

First class Honours
